Touchfree™ Electronic Door System

Touchless operation to enhanced cleanliness.

The Adams Rite Aerospace touchless electronic door system allows the passenger to lock and unlock the lavatory door without having to touch it. Our best-in-class solenoid technology allows for a reliable door latching system. Proprietary software prevents accidental opening/closing of the locking mechanism while allowing for flight attendant emergency mechanical override. The system can also be mechanically overridden in the event of an electronic failure.

Features:

- Cross platform compatible with Boeing and Airbus aircraft
- Reliability (MTBUR): >40K Flight Hours
- Power consumption: 2W
- Patent pending

The Adams Rite Advantage

The proprietary technology in our touchless electronic door system will drive best in class performance and reliability. To learn more about specifications and performance please contact your Adams Rite Aerospace sales representative.
