# Touchfree™ Faucet

**Our Touchfree Faucet offers the industry's latest sensor technology specifically for aviation application. The proprietary, in-house design delivers the highest quality, robust detection in the market.**

The faucet's precise, infrared sensing is tuned for each lavatory configuration, giving every passenger a reliable, hands-free experience every time. Wall-mounted or deck-mounted design can adapt to replace an existing electronic or mechanical faucet in the lavatory.

## Features:

- Reliability (MTBUR): 45K Flight Hours
- Weight: 0.4 Kg
- Size: 4.50X1.8X2.2"
- Power: 2W (without drain); 15W (with drain)

## The Adams Rite Advantage

Since the 1970s, Adams Rite Aerospace has been the leader in aerospace faucet technology. Our sensors have evolved over the years into well-tuned, discreet component packages that specifically suit the lavatory application. Our next-generation Touchfree™ faucet, which reliably activates every time, is designed to minimize false activations and provide efficient use of water onboard the aircraft.
