Touchfree™ Toilet Seat

Make your lavatories a cleaner place by deploying the Adams Rite Touchfree™ Toilet Seat.

Our design allows the passenger to open the lid, or the lid and seat without having to touch them. Our proprietary technology will sense if a user is using the toilet (sitting or standing in front of it), and once a passenger is gone, it will automatically close. The design prevents passengers from slamming the seat shut and is a retrofit solution for most A320/A330 and B737 designs.

Features:

- Cross platform compatible with Boeing and Airbus aircraft
- Reliability (MTBUR): >40K Flight Hours
- Power: 6W max
- Patent pending

The Adams Rite Advantage

Airlines consistently say that slamming the seat shut and other passenger interactions are a big issue for the maintenance and service life of a toilet seat. Adams Rite can solve this problem and make your lavatories a cleaner place.
