Touchfree™ Mechanical Door System

Touchless operation for enhanced cleanliness.

The Adams Rite touchless mechanical door system allows the passenger to lock and unlock the lavatory door without having to touch it with their hands. This is the first aircraft design for a foot-operated door lock. It is easily retrofittable with minimal installation required on the door.

Features:

- Cross platform compatible with Boeing and Airbus aircraft
- Reliability (MTBUR): >60K Flight Hours
- Patent pending

The Adams Rite Advantage

Adams Rite Aerospace is a leading designer and manufacturer of custom-engineered flight controls, hardware, security, latching, oxygen, lavatory components and fluid control systems for the aerospace industry.

We deploy state of the art technology with a team of highly skilled engineers dedicated to providing our customers with safe and innovative solutions.
