Touchfree™ Faucet

Benefits:

- Lower faucet cost of ownership by 62%
- Reduce fuel costs with up to 45% weight savings
- Reliability improvement of 33%
- Fully touchfree customer experience

Our Touchfree Faucet offers the industry's latest sensor technology specifically for aviation application. The proprietary, in-house design delivers the highest quality and most robust touchfree experience on the market.

The faucet's precise, infrared sensing is tuned for each lavatory configuration, giving every passenger a reliable, hands-free experience. Wall-mounted or deck-mounted design can adapt to replace an existing electronic or mechanical faucet in the lavatory.

Features:

- Reliability (MTBUR): 60K Flight Hours
- Weight: 0.5 Kg
- Size: 4.70 X 2.3 X 2.3"
- Power: 7W (without drain); 15W (with drain)

The Adams Rite Advantage

Since the 1970s, Adams Rite Aerospace has been the leader in aerospace faucet technology. Our sensors have evolved over the years into well-tuned, discreet component packages that specifically suit the lavatory application. Our next-generation Touchfree™ faucet, which reliably activates every time, is designed to minimize false activations and provide efficient use of water onboard the aircraft.
